fibers

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Martin J. D. Clift
In Vitro Toxicology Group,
Institute of Life Sciences 1,
Swansea University Medical
School (SUMS), Wales, UK

Message from the Editor-in-Chief

Fibers is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Rapid Publication** A first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the first half of 2023)
-  **Thorough Peer-Review**
-  **Coverage by Leading Indexing Services** Scopus, ESCI (Web of Science), PubAg, CAPlus / SciFinder, Inspec, and other databases
-  **Journal Rank** CiteScore - Q1 (*Civil and Structural Engineering*)

Aims and Scope

Fibers (ISSN 2079-6439) is a journal that publishes original articles, critical reviews, research notes and short communications on the materials science and all other empirical and theoretical studies of fibers, providing a forum for integrating fiber research across many disciplines.

The scope of *Fiber* includes:

- Polymer fibers;
- Carbon fibers;
- Nanofibers;
- Optical fibers;
- Glass fibers;
- Nanotubes;
- Plant fibers;
- Cellulose;
- Animal fibers;
- Mineral fibers;
- Synthetic fibers;
- Textile fibers;
- Fibers reinforcement;
- Fibers preparation, origins, processing;
- Fibers treatment, modification;
- Fibers structure, properties, toxicology;
- Fibers application;
- Other topics and technologies related to fibers.
