

Skype-interview

Greetings

The way you start your exam is very important. Do not forget to greet the teacher

- Hello/Good morning/Good afternoon
- My name is...
- Remember that 'How do you do?' is a greeting not a question and the correct response is to repeat 'How do you do?'
- 'How are you?' is a question and the most common and polite response is "I am fine thank you and you?"

If you do not understand the question, be prepared to ask for repetition or clarification if necessary. You could use one of the following phrases:

- Repetition
- I am sorry, could you repeat that please?
- Could / can you say that again, please?
- Would you mind saying that again, please?

➤ Clarification:

- Would you mind clarifying this point?
- I'm not sure if I've fully understood the main idea of the question. Could you explain it to me?
- What does (“the word”) mean/ stand for?
- Could you explain please ...

Asking about words

Try to provide answer to the question using the words you know well, but if you have forgotten some words do not hesitate to ask the teacher. The following phrases may help you:

- I might be a bit mistaken in using this term, but what I mean is...

Giving Your Opinion

There is a variety of ways how to express your opinion when speaking English. The choice of an expression to be used in the particular situation depends on how strong your opinion is, i.e. how sure you are about a particular thing.

- I feel that...
- In my opinion...
- As far as I'm concerned...

Rephrasing Expressions

Sometimes we say things that other people don't understand, or we give the wrong impression. If you are asked to explain or clarify your idea, do not use the same expressions and/or phrases, try to reformulate it starting your answer using one of the following phrases:

- What I meant to say was...
- Let me rephrase that...
- Let me put this another way...
- Perhaps I'm not making myself clear...
- The basic idea is...
- One way of looking at it is...
- Another way of looking at it is...
- What I want to say is...

Delaying Your Answer

Sometimes we need extra time to structure our answer in a more logical way. You may win some seconds by using the following phrases:

- Well, let me see...
- Let me think for a moment, please...
- That is a very interesting question...

Describing your personality

Do not forget to prepare a beautiful answer to the question “What are your weaknesses?”

Examples of talking about weaknesses in order to still show yourself in a favorable way

- I think that at the moment I tend to be a bit too individualistic, but I am learning to work in team and to become a true team-player. This is why I would like to study at GRIAT. I am sure it will give me this opportunity.
- I am afraid I tend to focus on studies too much and sometimes I do not get enough of rest. I am learning to combine effectively all parts of my life. I believe studying at GRIAT with totally new opportunities like working on company projects, studying languages, meeting peers from all over the world, travelling to Germany will help me broaden my horizon and develop self-discipline
- I lack international experience. I have never travelled or been abroad, I have never had any friends from other countries. This lack of experience might influence my ability to communicate in English fluently or bring some additional difficulties in working in international teams. This is why I think entering GRIAT will become a life-changing experience for me and a chance to get this crucial experience.
- Etc.

NB: Weaknesses are not a bad thing as long as you see them, know how to work on them and understand what steps to take to improve yourself. It is better to show that you are conscious and motivated rather than that you are a perfect human being (no one will believe it anyways 😊)
