

Research Intelligence

Solutions for Academic Executives

Enhancing Institutional Competitiveness

The world of research continues to be increasingly competitive. It's more global, more interdisciplinary and more resource-constrained than ever before. Evidence-based insights that complement your own knowledge and expertise enable you to develop research management strategies that better position your institution to get – and stay – ahead.

Through a suite of tools and solutions that combine comprehensive content and research data with robust information analytics, Elsevier powers institutions worldwide to create actionable insights that lead to impactful outcomes.

Faculty Recruitment and Retention

Use data to support faculty development

- Discover top potential hires
- Identify rising stars
- Inform recruitment, promotion, tenure and retention decisions

Prioritization of New and Current Investments

Model the success of potential ventures or evaluate current initiatives

- Identify your research strengths
- Assess research centers
- Foster interdisciplinary and collaborative research

Maximize External Funding Opportunities

Matching expertise to opportunity

- Identify research expertise
- Find and connect collaborators
- Locate experts for limited submissions review

Research Intelligence Solutions

Discover, analyze & network

Scopus®

As the most curated, authoritative abstract and citation database of peer-reviewed research literature, Scopus delivers a comprehensive view on the world of research.

www.elsevier.com/solutions/scopus

Mendeley

Mendeley is a free reference manager and academic social network that can help you organize your research, collaborate with others online and discover the latest research.

www.elsevier.com/solutions/mendeley

Manage & showcase

Pure

A customizable portal that facilitates an evidence-based approach to your institution's research and collaboration strategies, assessment exercises and day-to-day business decisions.

www.elsevier.com/solutions/pure

Digital Commons

An institutional repository and publishing platform to publish, manage and increase recognition for everything produced on campus, which integrates with a full faculty research and impact suite.

www.bepress.com/products/digital-commons

Mendeley Data

Our modular, cloud-based management platform enables secure storing, accessing and sharing of research datasets.
